*2024 JAMin. Christmas Singers - all returning!*

**2025 JAMin. Christmas Singers kick-off preparation September 12-13 at S. Mountain Baptist Camp, Connelly Springs, NC! Great fun, food, fellowship & hard work! Pray for the health and strength of this "maturing" bunch!**

**Little Flower Assisted Living**

We recently learned of a possible rezoning of the Little Flower Assisted Living property, which could result in its closure or relocation. JAMin. has enjoyed a relationship here since 2002, so we're understandably curious about the future. Pray that the right decision is made in the Sept. 3 meeting

**August 28**

Jeff A. & pastor friend Mike Williams teamed up at Durham Memorial Baptist Church in Charlotte to lead virtually shut-in and struggling Sr. Adults in a lunch, musical worship and Bible encouragement. A blessed time.

## Prayers for Lynne Andler

For some time Lynne has been aggravated by growing neuropathy symptoms in her feet and lower legs, to the point of disheartening and continuous pain. Dr.s mainly wanted to prescribe pain meds, not giving much encouragement for true improvement. Recently a system of treatment was found that offered hope, so while there was no promise of total success, we decided trying something is better than doing nothing. Lynne has been in treatment for 3 weeks and has seen some progress, but still has a way to go. We ask for your prayers in this matter, so that significant and lasting restoration in the nerves and blood vessels can be the result!

### **Prayers for Jeff Andler**

Many may recall that in 2013 and again in 2018 I had total voice loss that lasted for 5-6 months. With God's help, the prayers of many, time and therapy, my voice was restored to normal use. Recently, my voice has developed an consistent airy and weak sound, which the Dr. simply says, "it's thinning of the vocal cords as you age, just as your skin becomes thinner and crepes." There's nothing wrong, there's no pain, no damage - just the normal process as the years pass. However, renewed therapy was suggested as a possibility to restore the voice to greater strength, though not "that of a 20 year old!" I have been in therapy and daily vocal exercises for 3 weeks. Some days I seem to feel improvement but some days not. Like Lynne's procedures (*see p. 1*), it will take time and discipline. I ask for you're your prayers in this matter also - I'm not ready to be totally quiet! Mom was right, "getting old is not for sissies!"
